

## Bullet Lights

LiquaLED Bullet Lights are SloanLED's latest spa offering for individual points of light. Compatible with most small fiber optic fittings, these bullet-shaped LED modules are pre-wired in a choice of three cable sets for easy daisy-chain installation throughout the spa. Utilizing the latest in LED technology, these modules provide full-spectrum color changing, ultra bright light output and unsurpassed efficiency. The perfect complement to LiquaLED Cluster Main Lights.

- LiquaLED Bullet Lights - New, patent pending "bullet" design LED modules with rugged LED-to-cable connection
- Color Changing LEDs – Latest LED technology produces the full spectrum of colors and allows for color changing and sequencing
- Daisy-Chain Wiring - Flexible configurations and easy installation
- Small Diameter LED Modules - Compatible with most small fiber optic fittings
- Positive Lock Connectors - Quick installs; reliable, industrial strength connections
- Connector Boot - Protects from moisture, dirt, foaming operations
- HighTemp Cable Sets - Proven not to melt under the highest temperature foaming operations
- Patent Pending LED Boot - Vibration proof attachment; no adhesives required
- Efficient Electrical Design - Drives more lights from the same power pack
- Integrated Circuitry Protection - New over-molded, water resistant case protects circuitry for reliable, no-fuss operation
- Jumpers - In two lengths, with mating connectors and boots
- Accessory Lens – Available UV stable polycarbonate lens and nylon hex nut, fit 3/8" hole; Lens PN 400372; Lens/Nut Combo PN 400372-N; Nut PN 400338; O-Ring PN 400417
- "Wedge" Accessory – used for improved compatibility with a variety of lens fixtures; PN 400402
