

Controllers

SloanLED's LiquaLED lighting controllers represent the ultimate in functionality, reliability and simplicity. Controlled by any standard "spa pack", and operated via the spa's lighting on/off switch on the top-side control panel, these controllers are easy to install and simple to operate. They also accept future plug-in accessories that will control the spa's lighting based on music, motion and outside lighting conditions

- Patent Pending control technology
- Controls colors, color-changing and sequencing via built-in software program
- Compatible with all LiquaLED Cluster Lights, Bullet Lights and Accent Lights
- UL Approved - File Number #E242370
- Serviceable fused input for safety
- Moisture resistant electronics
- Easy to mount anywhere in spa's equipment area
- Can accept future plug-in accessories to control lighting (music modulator, motion sensor, photocell, etc.)

Full Spectrum Color Control

LiquaLED Control 100

- Controls and synchronizes all LEDs
- Controls up to 100 LEDs
- Controlled by spa pack
- Powered by spa's stereo power supply or external SloanLED power supply
- Replaces large fiber optic systems

LiquaLED Control 40

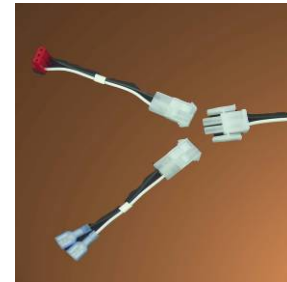

- Controls up to 40 LEDs
- Controlled by spa pack
- No external power supply required
- Cost effective control device

LiquaLED Control 100

LiquaLED Control 40

Optional Connector Adapters

Item Description	LiquaLED Controllers	
	Control 100	Control 40
Part Number	701712	701678
Max Number of LEDs (Not including clusters)	100	40
Required Input Voltage - AC	12 V AC from Spa Pack	
Required Input Voltage - DC	External 12 V DC Supply	No External DC Supply Required
Typical Max Output Current / Power	2 Amps / 24 Watts	1 Amp / 12 Watts
Controller Dimensions	5.5"W X 3.5"H X 1.5"D	4.4"W X 2.4"H X 1.1"D
On/Off Control	Spa pack light on/off switch on top-side control panel	
Auxiliary Control Input Connector	Accepts LiquaLED Music Modulator (701690)
