

Perimeter and Skirt Accent Lights

SloanLED's LiquaLED Perimeter and new Skirt Accent Lights add dynamic, full-spectrum, colored accent lighting to your spa's exterior. The Perimeter Lights are available in two different systems and mount underneath a top-side concealed lip, or along the bottom-side kick-plate area. The Skirt Lights provide additional accent lighting by mounting directly to the spa's skirting. The Skirt Lights may also be used on steps, gazebos or any vertical exterior surface where a splash of color will enhance your spa environment.

All LiquaLED accent lights are fully compatible with the LiquaLED line of Bullet Lights, Cluster Main Lights, Controllers, Power Supplies and Accessories, and illuminate in sync with the system's color-changing and sequencing programs. The proven positive-lock connectors and simple daisy-chain wiring allows for easy expansion and integration with other LiquaLED components. The high-temp cable sets will not melt, even under the highest temperature foaming operations. These robust, high quality RGB LED products are easy to install and operate, and provide the perfect complement to your spa's interior LED lighting.

Standard Perimeter Lighting System

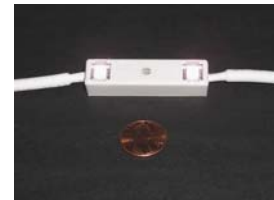

- Color changing modules use individual Red, Green and Blue LEDs to produce the full spectrum of colors
- Peel-n-Stick mounting of modules
- Available in a single-module 18" string or in a 6' string w/ four LED modules spaced on 18" centers; the 6' string is pre-mounted in an extruded track for easy mounting & wire management

Std. Perimeter Light (w/ track)

Premium Perimeter Lighting System

- This upgraded system uses two high-brightness, integrated RGB LEDs per module for beautifully blended colors, and increased brightness
- Higher light output offers longer throw of light & wider coverage area
- Peel-n-Stick or mechanical mounting of modules (using screws/rivets)
- Available in a 7 1/2' string w/ four modules spaced on 18" centers

Premium Lighting Module

Skirt Light Lighting System - **NEW**

- Color changing modules use Red, Green and Blue LEDs to produce the full spectrum of colors
- Durable housing with integrated threaded shaft mounts to skirting through 5/8" hole and is secured with supplied nylon nut
- Low profile design eliminates damage during crating, shipping and use

Skirt Lighting Module

Item Description	Standard Perimeter Lighting		Premium Perimeter Lighting	Skirt Lighting
	18-Inch String	6-Foot String with Track	7 1/2-Foot String	Skirt Light Module
Part Number	701755-1-9	701755-T4-18	701755-M4-18	701787
# Modules	1 Module per String	4 Modules per String	4 Modules per String	1 each
Typical Maximum Current	70 mA each	280 mA per String	280 mA per String	60 mA each
Cable Length (connector-to-connector)	18" Cable	6' Total Cable	7 1/2' Total Cable	36" Cable

Bright, Vivid Colors
